

# Getting to the Root of It

Monthly Newsletter - March

## IN THIS ISSUE

**The Best Nandinas**

**Let Me Introduce  
You**

## WELCOME!

Each month our informative and useful newsletter focuses on new plant varieties, upcoming events plus industry trends and news. Feel free to pass along.

## The BEST New Nandinas

Village Nurseries is the exclusive grower of the Sunset Western Garden Collection™. There are three outstanding Nandinas in this collection - all performing beautifully in our Western gardens. Each has outstanding qualities making them an ideal candidate for many landscaping situations. They are very low maintenance, adaptable to a wide range of soil conditions and best of all are drought tolerant once established. In addition each is naturally compact, which is ideal for low hedging, foundation plantings and also in containers.

Seasonally these Nandina offer more colorful foliage than the other more commonly used varieties. [Click here](#) to view our Nandina comparison chart, which illustrates the seasonal color ranges and sizes of these new varieties. If you'd like to receive a copy of the Sunset Western Garden Collection™ brochure, \* [click here](#) to fill in name and mailing information.

Nandina Blush Plnk

Nandina Obsession

Nandina Flirt

---

*Let Me Introduce You*  
*Give these exclusive varieties a try!*

---

Nandina 'Blush Plnk' looks fabulous with Loropetalum and Liriope . Use 'Blush Plnk' as an excellent substitute for Nandina 'Firepower'. The year round show of color creates garden interest as well as interesting contrast with other darker foliage plants.

Nandina 'Flirt' has the perfect profile to be a container plant. This is an excellent example of a long-term patio ready container! Nandina 'Flirt' is the perfect replacement for the difficult to find Nandina 'Harbour Dwarf'. With its low, flat growth habit, 'Flirt' makes a nice ground cover, too.

Nandina 'Obsession' is planted here with Nandina 'Flirt' (foreground). 'Obsession' is a sport of Nandina 'Gulf Stream'. Unlike 'Gulf

Stream' this beauty starts out with colored new foliage. It doesn't need to wait for cooler fall weather. This colorful nandina looks fabulous as a foundation planting or combined with any other garden varieties.

#### **Did You Know:**

**65% of household water consumption goes towards watering the yard. 30% is lost through overwatering & evaporation. YOU CAN SAVE 20-30 gallons per day by spreading 3" layer of G&B Soil Building Compost around plants to retain moisture.**

Hopefully one or many of the products featured here have inspired you to incorporate them into your next design. We are always striving to make our Facebook pages, website and newsletters more informative and useful. We look forward to your feedback.
